

Company Profile

About Us

VINTECH99 SOLUTIONS

Vintech 99 Solutions, established in 2019, specializes in the provision of high-quality inspection and sorting services. Over the past few years, Vintech has operated as an in-house contractor for renowned corporations, including Silitech Technology Corporation Sdn. Bhd. and Robert Bosch (M) Sdn. Bhd. Founded and currently based in Penang, Malaysia, Vintech operates as a registered company under the Companies Commission of Malaysia (SSM).

Our growing client base is a testament to our commitment to fostering trust, reliability, and consistency. At Vintech, we are dedicated to maintaining the highest levels of accuracy in all aspects of our work, as we strive to ensure that both new and existing clients are entirely satisfied.

Mission

Customer is king. We believe in putting the customer first, and we do it by ensuring their complete satisfaction through our professionalism. Our dedicated team is always ready to provide the best solutions and services that meet our clients' budget and schedule goals.

Vision

To put ourselves on the map. We want Vintech to be established as the go-to service provider for companies when it comes to inspection and sorting

Our Expertise

VINTECH99 SOLUTIONS

Vintech 99 Solutions is your expert partner in managing the quality demands of your production line. Our proficiency and qualifications in quality control and assurance enable us to provide comprehensive and reliable solutions to meet your specific inspection and sorting requirements. We have extensive experience in a variety of industries, including but not limited to:

Quality Sorting

- .Visual and dimensional inspection
- .Custom Machine Sorting System
- .Gauging Inspection
- .Rework

Preferred Quality Services provides precise inspection of parts or components that adhere to our client's specific part specifications. With an impressive daily volume of hundreds of thousands of parts, each with its distinct criteria, we meticulously sort through them to ensure accuracy.

Our team of operators undergoes extensive training, testing, and have exceptional experience in sorting various types and sizes of parts across different industries, meeting individual client requirements. We strictly follow ISO operating procedures in every sorting project, ensuring that non-conforming parts are contained, data is collected, and daily reports are accurate for our customers.
